Let Your Imagination Run Wild

Our unique circular paving system makes it possible for the first time ever to create perfect winding paths and circular features in your landscape without the headache of having to cut pavers.

Creative Curve is available in our full colour range presenting limitless design possibilities.

Paving comes full circle

Our Creative Curve circular paving system is based on a full circle with a diameter of 3600mm composed of just seven unique pieces.

1 center piece, 4 rings and 2 half pieces for row 2 and row 4.

Each of the 4 rings of the circular pavers is 400mm on the straight edge to match our standard paving range.
